

# AMSAC

INDOXACARB 14.5% SC

Amsac is a broad-spectrum contact and stomach insecticide used to control lepidopteron pests in various crops and is effective at low dose rates.

### Features:

- ➔ belongs to oxadiazine chemistry, which is novel and effective against resistant population of pests to conventional pesticides
- ➔ has broad-spectrum action, acts on most of the lepidopteran species and kills all stages of insect larvae
- ➔ dispersion in water is uniform and has excellent spread

**Available SKUs:** 1 L, 500 ML, 200 ML, 100 ML, 50 ML

### Benefits:

broad-spectrum

long-lasting  
control

safe to beneficial  
insects

great IPM fit

rainfastness

| crops      | target pests      | dose/acre  |
|------------|-------------------|------------|
| cotton     | bollworms         | 200 ML     |
| cabbage    | diamondback moth  | 100-200 ML |
| chilli     | fruit borer       | 100-200 ML |
| tomato     | fruit borer       | 200 ML     |
| pigeon pea | pod borer complex | 200 ML     |

**Note:** Shake the bottle well before using Amsac and prepare solution by mixing it well in water.

**Antidote:** No specific antidote. Treat symptomatically.
