

CONEO 71

Ammonium salt of Glyphosate 71% SG

Coneo 71 is a systemic, broad-spectrum, non-selective, post-emergence herbicide. Coneo 71 gives complete and speedy control on hard to kill annual and perennial weeds.

Features:

- ➔ quicker and higher absorption
- ➔ kills faster as compared to IPA salt
- ➔ better rainfastness
- ➔ better control of broadleaf and hard-to-kill weeds
- ➔ cost-effective weed management

Available SKUs: 1 kg, 100 g

crop	target weeds	dose/acre
tea and non-crop area	<i>Acalypha indica</i> , <i>Ageratum conyzoides</i> , <i>Cichorium intybus</i> , <i>Cynodon dactylon</i> , <i>Cyperus rotundus</i> , <i>Digera arvensis</i> , <i>Digitaria sanguinalis</i> , <i>Eragrostis</i> spp., <i>Ipomoea</i> spp., <i>Paspalum conjugatum</i> , <i>Sida acuta</i>	1.2 kg

Antidote: Symptomatic treatment to control convulsion, phenobarbital (up to 0.7 g per day) may be given.
