

# HELICO

**Thiamethoxam 12.6% + Lambda cyhalothrin 9.5% ZC**

Helico is a combination insecticide and recommended to control a wide range of sucking insects in prescribed crops

## Features:

- ➔ a perfect mixture of contact and systemic insecticide - no tank mix required
- ➔ excellent rainfastness due to unique ZC (Zeon Concentrate) formulation
- ➔ good crop vigour and plant stand
- ➔ broad-spectrum control of early sucking pests

**Available SKUs:** 1 L, 500 ML, 200 ML, 100 ML

crops	target pests	dose/acre
