

VINIA

Pretilachlor 50% EC

Vinia is a pre-emergence herbicide used to control grassy and broadleaf weeds in transplanted rice.

Features:

- ➔ a pre-emergence herbicide for control of grasses, sedges and some broadleaf weeds in transplanted rice
- ➔ taken up rapidly by the germinated weeds and to a lesser extent by the roots of germinating weeds, which die shortly after emergence
- ➔ Safe for rice crops - no adverse effect like stunting or yellowing of crop, rather gives greening effect to the crop

Available SKUs: 5 L, 1 L, 500 ML

Benefits:

broad-spectrum
control

fast action

safe for rice crop

crop	target weeds	dose/acre
transplanted rice	<i>Cyperus spp.</i> , <i>Echinochloa spp.</i> , <i>Eclipta alba</i> , <i>Fimbristylis miliacea</i> , <i>Leptochloa chinensis</i> , <i>Ludwigia parviflora</i> , <i>Monochoria vaginalis</i> , <i>Panicum repens</i>	400-600 ML

Antidote: No specific antidote. Treat symptomatically.
